1970 INDEX

Public Health Reports

Volume 85, January-December

THIS INDEX to *Public Health Reports* is divided into a subject index and an author index.

The subject index carries one or more entries for each item published. In addition to the subject headings, categorical headings include ANNOUNCEMENTS (ORGANIZATIONS AND PERSONNEL), CONFERENCE REPORTS, PHS GRANTS, AND TRAINING COURSES.

KUM

Key to Dates and Pages

Pages	*Month of issue*	*No.*
1–94	January	1
95–188	February	2
189–282	March	3
283–376	April	4
377–470	May	5
471–564	June	6
565–658	July	7
659–752	August	8
753–846	September	9
847–940	October	10
941–1034	November	11
1035–1156	December	12

Key to Classification Code

(*) Original, signed article
(CR) Conference report
(SR) Short report

Subject Index

ABNORMALITIES *see* Malformations, Congenital
ABSENTEEISM
from influenza; determined by statewide surveillance system in Pennsylvania, December 1968–January 1969 *603
ACCIDENTS
among Navajo Indians, epidemiologic study *881
Injury Control Research Laboratory, Public Health Service; progress report *1109
motor vehicle; involvement of alcohol drinking in fatalities of Wisconsin drivers *535
ADMINISTRATION
assigning program priorities; use of *Q* value to aid management, Indian Health Service, Tucson, Ariz *725
Chattanooga, Tenn., a "laboratory" for new service programs (CR) 305
decentralization process evaluated by employees of Pennsylvania Department of Health *919
definition and measurement of health and disease *100
evaluation of health programs *835
health, curriculum revisions at University of North Carolina (CR) 308
health services, training for professional and consumer participants in new health partnerships, University of Cincinnati (CR) 306
perceptual differences of health officers and hospital administrators regarding health care programs (CR) 308
supervision of health aides, practice guidelines *780
ADOLESCENTS *see* Child Health and Welfare
AFRICA
establishing family planning services in Kenya; a review *131
Liberian fertility survey, use of Chandrasekar-Deming technique; problems with field application *965
packaged PHS disaster hospitals sent to Nigeria (SR) 239
AGED
knowledge and awareness of and attitudes toward Medicare in five Midwest communities; a followup *868
men, hearing loss tied to cigarette smoking (CR) 333
AIR POLLUTION
see also Environmental Health
effects of noxious pollutants emitted by Federal facilities to be studied (SR) 867
AIR POLLUTION—Continued
Federal Clean Car Incentive Program (SR) 974
levels linked to severe childhood allergies (CR) 339
pigeons as indicators (SR) 360
rise in sulfur dioxide level related to rise in daily deaths, New York City (CR) 341
ALASKA
Natives and U.S. Indians, time loss and indirect economic costs caused by disease; comparison with general U.S. population *397
otitis media among Eskimo children; epidemiologic studies *699
ALCOHOL
drinking, involvement in fatalities of Wisconsin drivers *535
ALCOHOLISM
Division of Alcohol Abuse and Alcoholism formed in National Institute of Mental Health (SR) 900
ANNOUNCEMENTS, ORGANIZATIONS
Environmental Engineering Intersociety Board certification examinations 154, 1000
Federation of Associations of Schools of the Health Professions 24
Medical Assistance Advisory Council, membership list 18
National Advisory Council on Public Health Training awards more than $7 million for new educational facility at Harvard School of Public Health 39
Nutrition and Health Program transferred from National Center for Chronic Disease Control to Regional Medical Programs Service 463
reorganization of Department of Health, Education, and Welfare programs for mothers and children 10
transfer of Maternal and Child Health Service to Health Services and Mental Health Administration 90
ANNOUNCEMENTS, PERSONNEL
Cox, William E., special assistant for physical therapy affairs, Community Health Service, DHEW 586
Duncan, Edgar N., assistant to the Administrator, Health Services and Mental Health Administration 586
Johnson, Emery A., director, Indian Health Service, Health Services and Mental Health Administration 279

ANNOUNCEMENTS PERSONNEL—Continued
Steinfeld, Jesse L., Surgeon General of the Public Health Service 111
Wilson, Vernon E., Administrator of Health Services and Mental Health Administration 599
ANTIBIOTICS *see* Drugs
ARMED FORCES
hearing conservation in the U.S. Army *896
ATOMS
single atoms of thorium and uranium revealed by high resolution scanning electron microscope (SR) 680
ATTITUDE *see* Behavior
AUTOMATED DATA PROCESSING
automated multiphasic health testing facility, cost analysis of developmental phase, Tulane project *685
computer analysis of electrocardiograms with six and twelve leads evaluated *853
computer as tool in health screening (CR) 289
family planning data computerized, Atlanta, Ga. (CR) 318
GRACE (graphic arts composing equipment), first computer-driven phototypesetter, retired to Smithsonian Institution (SR) 456
use in multiphasic health testing *361

BATS
and soils studied for sources of histoplasmosis in Florida *1063
insectivorous, with rabies, United States, 1953–65; a review *637
BEHAVIOR
see also Individualism
attitudes of married college students toward overpopulation and family planning *412
childhood characteristics as indicators of adult health status; relationship of school records to selective service classification, New York City study *981
children's perceptions of vulnerability to illness and accidents; an exploratory study *69
consumer motivation and acceptance of urinary screening of school children, Galveston County, Tex.; epidemiologic study *828
evaluation of motivation of patients in a beta streptococcal control program, Denver Department of Health and Hospitals *113
experiment in modifying health beliefs *478
factors predictive of adolescent deviant behavior (CR) 324
relation between annoyance reactions and attitude to source of annoyance; aircraft and motor traffic noise in Sweden *1070
research on health behavior, manual for scoring socioeconomic status *815
response to physical activity programs and their effects on health attitudes *905

BIBLIOGRAPHIES
Abridged Index Medicus, National Library of Medicine 122
National Library of Medicine 635
BIRTH CONTROL *see* Contraceptives; Family Planning

CANCER
childhood rhabdomyosarcomas, genes, and environment (CR) 328
chromosome aberrations among A-bomb survivors (CR) 328
genetic-environmental role seen in some neoplasms, Minnesota four-hospital study (CR) 327
oral cytology program promoted by public health detailer (CR) 349
possible link to X-ray treatment of scalp ringworm (SR) 205
treatment machine being developed to deliver high-energy neutron beams (SR) 932
CAPILLARIASIS
epidemiology of human intestinal disease, northern Luzon (CR) 338
CARDIOVASCULAR DISEASES
associations of mortality with weather in Memphis, Tenn *25
CHILD HEALTH AND WELFARE
action-oriented training program for pediatric nurse practitioners, Massachusetts General Hospital (CR) 304
allergies linked to air pollution levels (CR) 339
behavioral deviant adolescents, identification during elementary school years (CR) 324
child-resistant containers for pills (SR) 842
children of migrants, health services under the Elementary and Secondary Education Act (CR) 325
children's perceptions of vulnerability to illness and accidents; an exploratory study *69
children's urine screened for symptoms of kidney diseases, Galveston County, Tex. (CR) 326
congenital malformations, background and methodology of study, Iowa *913
dangers of adolescent pregnancies (SR) 1031
dental care, use of dental nurses in New Zealand (CR) 349
diagnosis and treatment of lead poisoning (CR) 320
diets of anemic and nonanemic children; survey of cost differences *1087
disturbed children, education-oriented therapy program at Hawthorne Hills School, Northfield, Ohio (SR) 698
drug addiction among school-age youth, Federal Drug Abuse Program 565
dyslexia subtype clue, reading-spelling patterns (CR) 325

CHILD HEALTH AND WELFARE—Continued
electric brain responses are clues to children's hearing (SR) 1090
Eskimo children, epidemiologic studies of otitis media *699
family nurse practitioners, key to medical needs (CR) 302
handicapped children; how to evaluate services and care *647
Head Start enrollment in Hawaii, factors influencing *207
Head Start progress report (SR) 1061
lead ingestion, varying psychological sequelae; review of literature *19
lead poisoning prevention, degree of success noted among Baltimore City children (CR) 323
low-birth-weight infants' intellect tested (CR) 320
migrant children; uniform student record transfer system developed by Arkansas State Department of Education (SR) 502
newborns in New York City tested for galactosemia, 1968–69 *575
new report system devised for Children's Bureau covering projects under title II of Public Law 89–97 (CR) 290
obstacles to medical care for children of neglecting parents (CR) 322
Papago Indian children *1047
podiatry screening project, District of Columbia *803
pregnant weight watchers risk harm to babies (SR) 964
reorganization of DHEW programs for mothers and children (SR) 10
transfer of Maternal and Child Health Service to Health Services and Mental Health Administration (SR) 90
unmet medical needs; survey of children in six Florida counties, 1967 *189
vision screening of preschool children in mobile clinics in Iowa, 1967–68 *41
vision testing by parents of 3½-year-old children *426
CHOLERA
advice to world travelers from Center for Disease Control (SR) 879
CHRONIC DISEASES
see also name of disease
Commission on Chronic Illness, 1954 Baltimore survey; followup study (CR) 331
prevention by improving environment (CR) 287
COAL MINERS *see* Occupational Health
COCCIDIOIDOMYCOSIS
in Los Angeles County *393
COMMUNICABLE DISEASES *see* name of disease
COMMUNICATIONS
advertising campaign for use of seat belts fails (SR) 655
Medical Information Network, MEDINET (formerly PHS Emergency Radio Network) (SR) 44
via satellite, used by medical centers to assist physicians in remote areas (SR) 569
COMMUNITY HEALTH
dynamic role predicted for nurses, Illinois (CR) 300
Federal health agency as preceptor in community medicine *151
workshops on services and health manpower planning for State occupational and physical therapists (SR) 130
COMMUNITY MEDICINE
team learning in community medicine for medical and paramedical students, University of Kentucky *558
CONFERENCE REPORTS
American Public Health Association, 97th, 1969 283
CONSUMER SERVICES
Georgia's program (SR) 963
CONTRACEPTIVES
oral, excess mortality of pill and cigarette users in 1966 from thromboembolisms, annual risk *197
search for preparation to prevent venereal disease and pregnancy *1062

DEMOGRAPHY
factors in opiate addiction among Mexican-Americans *523
redefinition of Hispanos by an improved method for recognizing Spanish surnames *617
DENTAL HEALTH
dental Medicaid in New York State (CR) 347
dentistry's role in regional medical programs (CR) 345
group practice and poverty communities, pilot program, Harbor City, Calif. (CR) 347
legal scope of dental hygienists in the United States and other countries *941
oral cytology program promoted by public health detailer (CR) 349
practices of mothers, socioeconomic status and factors influencing (CR) 346
use of school dental nurses, New Zealand (CR) 349
DIABETES
hyperlipidemia as a prognosticator of abnormal glucose tolerance; an exploratory study *241
DIAGNOSTIC TESTS AND TECHNIQUES
only one drop of blood needed for indicator of many diseases (SR) 895
DIET *see* Nutrition

DIPHTHERIA
analysis of outbreak, Austin, Tex., 1967–69 *949
Corynebacterium diphtheriae from 1962 epidemic survives in partly immunized group of rural school children, Madison County, Ala. (CR) 310
DRUG ABUSE
education film guide (SR) 738
intravenous methamphetamine, illicit use associated with hepatitis *809
DRUG ADDICTION
among school-age youth, Federal Drug Abuse Program 565
ex-addicts help teachers in drug education program (CR) 326
heroin, methadone maintenance treatment program, New York City (CR) 355
illicit drug use and addiction in the United States *1035
readmission rates at Public Health Service Hospital, Lexington, Ky., for 43,215 narcotic drug addicts, 1935–66 *610
use of opiates among Mexican-Americans, demographic factors *523
DRUGS
see also Contraceptives
child-resistant containers for pills (SR) 842
gonorrheal urethritis in males treated with a single oral dose of minocycline *160
Rifampin, new antituberculosis drug effective against other pulmonary diseases (SR) 690
ECOLOGY
vertebrate, in public health *105
ECONOMICS, HEALTH
cost analysis of developmental phase of an automated multiphasic health testing facility, Tulane project *685
effect of heavy medical expenditures on low-income families; incidence and impact *419
increase in 1969 hospital expenses (SR) 484
multifaceted plan offered to check hospital costs (CR) 297
survey of cost differences of diets of anemic and nonanemic children *1087
time loss and indirect costs caused by disease among Indians and Alaska Natives; comparison with the general U.S. population *397
EDUCATION
of nurses does not affect later performance (CR) 303
postdoctoral, United States (SR) 206
EDUCATION NOTES *see* Training Courses
EGYPT
blindness in urban and rural areas, prevalence and causes *587
ELECTROCARDIOGRAPHY
electrocardiograms with six and twelve leads, evaluation of computer analysis *853
EMERGENCY HEALTH SERVICES
in community hospitals *163
nationwide availability *517
new periodical: Emergency Health Services Digest (SR) 373
Nigeria, use of packaged PHS disaster hospitals in aftermath of civil war (1969–70) *659
packaged PHS disaster hospitals sent to Nigeria (SR) 239
urban hospital emergency room, public health nursing experiences (CR) 300
ENCEPHALITIS
California, observed in Pennsylvania (CR) 314
ENVIRONMENT
and genetics role seen in some neoplasms, Minnesota four-hospital study (CR) 327
interaction of genes and environment in rhabdomyosarcomas (CR) 328
ENVIRONMENTAL HEALTH
see also Air Pollution
air and water pollution, position of the Federal Government on control (CR) 342
certification examinations by Environmental Engineering Intersociety Board 154, 1000
management of resources (CR) 344
measurement of stray neutron spectra around a tandem Van de Graaff accelerator, Yale University (CR) 316
need for stronger role by public health community (CR) 342
pollutants can unbalance earth's delicate ecosystems (CR) 343
protection against all but unavoidable or beneficial sources of radiation (CR) 314
publications for rat control and prevention programs (SR) 40
reactor safety evaluation by Public Health Service (CR) 315
University of Michigan's sea grant program (SR) 927
EPIDEMIOLOGY
approaches to primary prevention of disease *1
beef tapeworm infection in the United States *169
Chamorros' health not hurt by migration or Westernization (CR) 309
childhood rhabdomyosarcomas, genes, and environment (CR) 328
chromosome aberrations and cancer among A-bomb survivors (CR) 328
Collaborative Community Stroke Study (CR) 330
comparison of epidemiologic yield in followup of male and female contacts of gonorrhea patients, Seattle-King County Wash., 1968–69 *997
Corynebacterium diphtheriae from 1962 epidemic survives in partly immunized group of rural school children, Madison County, Ala. (CR) 310

EPIDEMIOLOGY—Continued
food poisoning occurrences in New York City, 1969; under-reporting in the city and nation ---- *1013
genetic-environmental role seen in some neoplasms, Minnesota four-hospital study (CR) ---- 327
human intestinal capillariasis, northern Luzon (CR) ---- 338
of accidents among Navajo Indians ---- *881
of leukemia among patients irradiated for benign and malignant gynecological disorders (CR) ---- 329
outbreak of food poisoning caused by *Bacillus cereus*, University of California, Berkeley ---- *45
outbreak of Hong Kong influenza in Milwaukee, winter 1968–69 ---- *140
serologic evidence of endemic area of California encephalitis in Pennsylvania (CR) ---- 314
serum hepatitis-related antigen in patients with viral hepatitis, New York City (CR) ---- 312
strategy for high-risk parity group (CR) ---- 318
studies of otitis media among Eskimo children ---- *699
susceptibility survey to evaluate Cendehill vaccine, United States and Caribbean (CR) ---- 311
teaching programs in the epidemiology of mental health ---- *1129
urinary study of school children, including consumer motivation and acceptance of screening project, Galveston County, Tex ---- *828

ETHNIC GROUPS
see also name of group
screening of ethnic subgroups in New York City for symptoms associated with psychiatric impairment ---- *495

FAMILY PLANNING
and overpopulation, attitudes of married college students ---- *412
continuance of contraception post partum, patients of Cook County Hospital, Illinois ---- *220
data computerized, Atlanta, Ga. (CR) ---- 318
District of Columbia birth control program, participation of low-income urban women ---- *859
elegance versus relevance in population research (CR) ---- 317
epidemiologic strategy for high-risk parity group (CR) ---- 318
establishing services in Kenya; a review ---- *131
evaluated by vital statistics and census tract data, Emory University program ---- *383
Guatemala; 1967 program at 20 centers analyzed ---- *570

FAMILY PLANNING—Continued
India, evaluation of training of nurses as Peace Corps extension workers in family planning ---- *707
suggestions on adding to curriculums of medical schools in India ---- *889
use of paraprofessionals in New York City to motivate women to return for post partum checkup; Planned Parenthood Project ---- *625

FILIPINOS
and Japanese plantation workers in Hawaii, coronary risk factors ---- *975

FILMS
descriptive announcements ---- 65, 99, 494, 732, 843, 1019, 1128

FOODBORNE DISEASES
food poisoning outbreak in Kentucky traced to creamed turkey ---- *1103
occurrences in New York City, 1969; under-reporting in the city and nation ---- *1013
outbreak of poisoning caused by *Bacillus cereus*, University of California, Berkeley ---- *45

FOOD PROTECTION
role of local health department (CR) ---- 313

FUNGUS DISEASES
blastomycosis, sexually transmitted (SR) ---- 1112
Sporothrix (*Sporotrichum*) *schenckii* isolated from sphagnum moss in a nursery barn, use of disinfectant to control ---- *579

GALACTOSEMIA
tests of New York City newborns by fluorescent spot method, in conjunction with phenylketonuria screening, 1968–69 ---- *575

GARBAGE *see* Wastes, Solid

GENETICS
genetic-environmental role seen in some neoplasms, Minnesota four-hospital study (CR) ---- 327
interaction of genes and environment in rhabdomyosarcomas (CR) ---- 328
total synthesis of gene achieved (SR) ---- 802

GLAUCOMA *see* Vision

GONORRHEA
control through community involvement (CR) ---- 336
detection, preliminary report on a mass screening program, Chicago, 1968–69 ---- *681
effect of eliminating hemoglobin from Thayer-Martin medium on growth of *Neisseria gonorrhoeae* in primary isolates ---- *532
followup of male and female contacts of patients, Seattle-King County, Wash., 1968–69; comparison of epidemiologic yield ---- *997
gonococcal specimens, use of VCN (vancomycin, colistimethate, nystatin medium) to transport ---- *390
gonorrheal urethritis in males treated with a single oral dose of minocycline ---- *160

GONORRHEA—Continued
Neisseria gonorrhoeae fluorescent antibody conjugate, method for preparing *733
GRANTS, PHS
eight new comprehensive health centers awarded total of $4 million (SR) 87
for comprehensive health planning in 14 States (SR) 196
for nurse training improvement (SR) 58
four awarded to solve problems in solid wastes management (SR) 464
to 10 colleges and universities for construction of health education facilities (SR) 731
GUAM
rabies control *1113
GUATEMALA
analysis of 1967 family planning program at 20 centers *570

HANDICAPPED
children, how to evaluate services and care *647
HAWAII
coronary risk factors of workers on a Kauai plantation; comparison of data for Japanese and Filipinos *975
Head Start enrollment, influencing factors *207
incidence of obesity and overweight among Honolulu policemen and firemen *433
HEAD START *see* Child Health and Welfare
HEALTH AIDES
from "hard core" areas used to increase immunization levels *177
functions, as perceived by themselves and other health personnel *767
indigenous nonprofessionals trained as health screening technicians, Denver's neighborhood health program (CR) 285
in health education programs, guidelines for effective use *773
inner city, used in Baltimore tuberculosis control program *955
introduction to a series of papers *753
pain or panacea? *788
supervision, the key to success with aides; practice guidelines *780
training by "interaction development" approach *754
training, crucial areas and implementation *760
use of paraprofessionals in New York City to motivate women to return for post partum checkup; Planned Parenthood Project *625
HEALTH DEPARTMENTS
Chattanooga-Hamilton County (Tenn.) experiences in reorganization for delivery of health services (CR) 305
District of Columbia birth control program for low-income women *859
HEALTH DEPARTMENTS—Continued
issues in the development and operation of programs jointly sponsored by voluntary hospitals and local health departments (CR) 287
local, food protection role (CR) 313
local, officials cite future roles (CR) 288
Minneapolis, maternity and infant care programs for pregnant school girls (CR) 319
New York City audits Medicaid abuses (CR) 296
New York City, nurse-midwife service incentive program (CR) 323
Pennsylvania, employees evaluate process of decentralization of services *919
Philadelphia, role in changes in community policy (CR) 306
role of Illinois health department in placing operation of Cook County hospitals under nonpartisan board (CR) 295
HEALTH EDUCATION
children's perceptions of vulnerability to illness and accidents; an exploratory study *69
decline of individualism *213
effect of education methods on appointment breaking; study of patients with suspected glaucoma *441
experiment in modifying health beliefs *478
Medigame evaluated as educational tool *377
nostrums and machines of medical quackery; exhibit at National Library of Medicine (SR) 374
using health aides effectively, guidelines *773
visual aids for prevention of poisoning (SR) 150
HEALTH FACILITIES
community mental health centers number 376 (SR) 112
East Harlem District Health Center; sensitivity training to improve interpersonal relations between staff and consumers (CR) 286
eight new comprehensive health centers awarded total of $4 million (SR) 87
neighborhood health center as a new social institution, a political scientist's view (CR) 285
South Central Multipurpose Health Service Center, Los Angeles; acculturating health care in the ghetto (CR) 284
27 centers rated by Office of Economic Opportunity (CR) 284
HEALTH PLANNING
baseline data for planning and implementing local neighborhood health center programs (CR) 284
definition and measurement of health and disease *100
insurance industry looks ahead at health care in the 1970's *117

HEALTH PLANNING—Continued
issues in the development and operation of programs jointly sponsored by voluntary hospitals and local health departments (CR) 287
Jarvis' law and the planning of mental health services; influence of accessibility, poverty, and urbanization on first admissions to Connecticut State hospitals and role of alternative psychiatric service *503
PHS grants for comprehensive planning in 14 States (SR) 196
reaching for program accountability in mental health community practice *251
social design and operations research *247
urban and regional foundations *267
HEALTH SERVICES
see also Indigent
and care offered handicapped children; how to evaluate *647
automated multiphasic health testing facility, cost analysis of developmental phase, Tulane project *685
clinical laboratories, quality services for American people *155
community health and medical care reassessed, Philadelphia (CR) 306
evaluation of programs *835
for Federal employees *550
identification and development in a new town, Reston, Va. (CR) 307
implications of the New York City Health and Hospitals Corporation for improving delivery (CR) 293
mission of the Health Services and Mental Health Administration *95
Q value used as indicator to aid management in assigning program priorities, Indian Health Service, Tucson, Ariz *725
reorganization for delivery, experiences in Chattanooga, Tenn. (CR) 305
response to physical activity programs and their effects on health behavior *905
HEALTH SERVICES AND MENTAL HEALTH ADMINISTRATION
mission *95
HEARING
conservation in the U.S. Army *896
electric brain responses are clues to children's hearing (SR) 1090
hearing loss in older men tied to cigarette smoking (CR) 333
HEART DISEASE
coronary, primary prevention program, Franklin County, Ohio (CR) 330
coronary risk factors of workers on a Kauai, Hawaii, plantation; comparison of data for Japanese and Filipinos *975
mortality rates for rheumatic fever and rheumatic heart disease, Nashville and Davidson County, Tenn., 1940–65 *1091
HEART DISEASE—Continued
motion picture of coronary circulation (SR) 1108
survey of coronary care facilities in 50 Massachusetts hospitals *123
HEPATITIS
associated with illicit use of intravenous methamphetamine *809
serum hepatitis-related antigen in patients with viral hepatitis, New York City (CR) 312
HISPANOS
demographic redefinition by an improved method for recognizing Spanish surnames *617
HISTOPLASMOSIS
bat and soil studies for sources in Florida *1063
HOMICIDE
and suicide among American Indians compared with general U.S. population *75
HOSPITALS
changing patterns of hospitalization for psychiatric disorders, Pueblo, Colo., 1959–61 *81
community, emergency room use *163
emergency room treatment misses serious illnesses (CR) 300
floor cleaning procedures for patients' rooms, microbial evaluation (CR) 350
implications of the New York City Health and Hospital Corporation for improving delivery of health services (CR) 293
in Cook County (Ill.) operated by nonpartisan board (CR) 295
issues in the development and operation of programs jointly sponsored by voluntary hospitals and local health departments (CR) 287
Marine; used also for clinical instruction in 19th century *471
multifaceted plan offered to check costs (CR) 297
1969 expenses increased (SR) 484
nursing skills used little in 21 outpatient clinics (CR) 303
preventable admissions, factors leading to (CR) 292
readmission rates at Public Health Service Hospital, Lexington, Ky., for 43,215 narcotic drug addicts, 1935–66 *610
survey of coronary care facilities in 50, Massachusetts *123
use of PHS packaged disaster hospitals in aftermath of Nigerian civil war (1969–70) *659
HOSPITALS, MENTAL
a procedure for examining time changes in rates of readmission to Public Health Service Hospital, Lexington, Ky., 1935–66 *873

407-860—70——8

HOSPITALS, MENTAL—Continued
care given Medicaid patients to be reviewed (SR) 904
Connecticut State; influence of accessibility, poverty, and urbanization on first admissions; Jarvis' law and planning of mental health services *503
population continues to decline (SR) 672

IMMUNIZATION
Corynebacterium diphtheriae from 1962 epidemic survives in partly immunized group of rural school children, Madison County, Ala. (CR) 310
levels increased by use of health aides from "hard core" areas *177
measles, determination of immunity after a mass campaign, Hillsborough County, Fla *261
outbreak of Hong Kong influenza in Milwaukee, winter 1968–69 *140
INDIA
family planning, evaluation of training of nurses as Peace Corps extension workers *707
family planning, suggestions on adding to curriculums of medical schools *889
INDIANS, AMERICAN
accidents among Navajo Indians; epidemiologic study *881
and Alaska Natives, time loss and indirect economic costs caused by disease; comparison with general U.S. population *397
health of Papago children *1047
measures of longevity *233
suicides and homicides compared with general U.S. population *75
INDIGENT
acculturating health care in the ghetto community, goal of family health team, Los Angeles (CR) 284
effect of heavy medical expenditures on low-income families; incidence and impact *419
mentally ill, relevance of care, new careers program (CR) 359
using workers from "hard core" areas to increase immunization levels *177
INDIVIDUALISM
apparent decline in our society *213
INDUSTRIAL HYGIENE *see* Occupational Health
INFANTS *see* Child Health and Welfare
INFECTIOUS DISEASES *see* name of disease
INFLUENZA
outbreak of Hong Kong type in Milwaukee, winter 1968–69 *140
statewide surveillance system set up in Pennsylvania to determine extent of outbreak, December 1968–January 1969 *603
INSECTICIDES
DDT and DDE in blood and DDA in urine of men exposed to 3 percent DDT aerosol *457

INSURANCE, HEALTH
see also Medical Assistance; Medical Care
for psychiatric care, trends and difficulties (CR) 354
insurance industry looks ahead at health care in the 1970's *117
INTERNAL REVENUE SERVICE
policy on medical practice groups *451
INVENTION REPORTS
Dewar flask, spectrophotometric, with integral light shield *276

JAPANESE
and Filipino plantation workers in Hawaii; coronary risk factors *975

KIDNEY DISEASES
children's urine screened for symptoms, Galveston County, Tex. (CR) 326
disposable artificial kidney (SR) 1101

LABORATORIES
clinical, quality services for American people *155
public health microbiology, goals redefined (CR) 351
LABORATORY TESTS AND TECHNIQUES
effect of eliminating hemoglobin from Thayer-Martin medium on growth of *Neisseria gonorrhoeae* in primary isolates *532
experience at National Communicable Disease Center with micro serologic techniques for diagnosis of viral diseases (CR) 350
for galactosemia; fluorescent spot method, in conjunction with phenylketonuria screening, used to test New York City newborns, 1968–69 *575
method for preparing *Neisseria gonorrhoeae* fluorescent antibody conjugate *733
micromethods for respiratory virus seroepidemiology (CR) 351
occurrence of biologic false positive reactions with rapid plasma reagin (circle) card test on leprosy patients *66
survival of salmonellae in soft agar *841
total synthesis of gene achieved (SR) 802
use of spectrophotometric Dewar flask with integral light shield; invention report *276
VCN (vancomycin, colistimethate, nystatin medium) as selective transport medium of gonococcal specimens *390
LAWS AND REGULATIONS
legal scope of dental hygienists in the United States and other countries *941
on medical practice groups, Internal Revenue Service policy *451
standards for nursing homes with Medicaid patients (SR) 665
LEAD POISONING *see* Poisoning

LEPROSY
occurrence of biologic false positive reactions with rapid plasma reagin (circle) card test on patients ---- *66
LEPTOSPIROSIS
sporadic, trends in human beings in Florida, 1958–67 ---- *225
LEUKEMIA
among patients irradiated for benign and malignant gynecological disorders (CR) ---- 329

MALFORMATIONS, CONGENITAL
background and methodology of a study, Iowa ---- *913
MANPOWER
see also Health Aides; Physicians; Nurses
dental hygienists, legal scope in the United States and other countries ---- *941
Federation of Associations of Schools of the Health Professions (SR) ---- 24
medical technologists, inactive, a matching program to retain them; observations ---- *666
physicians, assessment of their distribution by specialty and location in the Baltimore Standard Metropolitan Statistical Area ---- *1001
physician's assistants (SR) ---- 1012
practical nurses in the health labor force (SR) ---- 1132
workshops on community health services and health manpower planning for State occupational and physical therapists (SR) ---- 130
MARIANA ISLANDS
Chamorros' health not hurt by migration or Westernization (CR) ---- 309
MARIHUANA *see* Drug Addiction
MATERNAL HEALTH
continuance of contraception post partum, patients of Cook County Hospital, Illinois *220
dangers of adolescent pregancies (SR) ---- 1031
family nurse practitioners, key to medical needs (CR) ---- 302
maternity and infant care programs for pregnant school girls, Minneapolis (CR) ---- 319
multiservice program helps pregnant teenagers, San Francisco (CR) ---- 321
participation of low-income urban women in a public health birth control program, District of Columbia ---- *859
pregnant weight watchers risk harm to babies (SR) ---- 964
reorganization of DHEW programs for mothers and children (SR) ---- 10
survey of changes in food habits during pregnancy ---- *1121
transfer of Maternal and Child Health Service to Health Services and Mental Health Administration (SR) ---- 90

MEASLES
see also Rubella
immunity determination after a mass immunization campaign, Hillsborough County, Fla ---- *261
MEDICAL ASSISTANCE
anticipated health behavior of families in relation to Medicaid, Monroe County, N.Y. ---- *1021
care of Medicaid patients in nursing homes and hospitals to be reviewed (SR) ---- 904
Medicaid abuses audited by New York City's health department (CR) ---- 296
Medicaid, dental, curtailed by New York State (CR) ---- 347
Medical Assistance Advisory Council membership list (SR) ---- 18
Medicaid patients can choose their providers of medical services (SR) ---- 697
Medicare deductible increase (SR) ---- 212
Medicare, knowledge and awareness of and attitudes toward, among older population in five Midwest communities; a followup *868
Medicare-Medicaid effects on care of mentally ill (CR) ---- 299
standards for nursing homes with Medicaid patients (SR) ---- 665
MEDICAL CARE
automated multiphasic health testing ---- *361
centers, communication via satellite with physicians in remote areas (SR) ---- 569
changing patterns of hospitalization for psychiatric disorders, Pueblo, Colo., 1959–61 ---- *81
comparison of health appraisals of apparently well persons by nurses and physicians ---- *1042
contract for guidelines and criteria between Regional Medical Programs Service and American Neurological Association (SR) ---- 432
delivery systems and community health services reassessed, Philadelphia (CR) ---- 306
effect of heavy expenditures on low-income families; incidence and impact ---- *419
for children with neglecting parents, obstacles (CR) ---- 322
general physicians' services in eight countries under social security laws (CR) ---- 294
Institute on Medicine to be created by National Academy of Sciences (SR) ---- 858
Kansas Blue Cross-Blue Shield outpatient benefits experiment (CR) ---- 298
mission of the Health Services and Mental Health Administration ---- *95
physicians in family practice, 1931–67 ---- *485
physicians' views of medical practice in nonmetropolitan communities; professional and social aspects ---- *11
practice groups; Internal Revenue Service policy ---- *451

MEDICAL CARE—Continued
survey of coronary care facilities in 50 Massachusetts hospitals *123
unmet needs of children in six Florida counties, 1967; a survey *189
younger age group using United Auto Workers nursing home benefits (CR) 298
MEDICINE, PREVENTIVE
approaches to primary prevention of disease *1
coronary heart disease, primary prevention program, Franklin County, Ohio (CR) 330
general, residency training compared with residency training in public health *933
improved environment can prevent chronic ills (CR) 287
use of automated multiphasic health testing systems *361
MENINGITIS
aseptic, epidemic involving ECHO 4 and Coxsackie B5 viruses, Baltimore, Md., 1967 *59
MENTAL DISORDERS
changing patterns of hospitalization, Pueblo, Colo., 1959–61 *81
disturbed children, education-oriented therapy at Hawthorne Hills School, Northfield, Ohio (SR) 698
influence of accessibility, poverty, and urbanization on first admissions to Connecticut State hospitals and alternative psychiatric service; Jarvis' law and planning *503
insurance coverage for psychiatric care, trends and difficulties (CR) 354
Medicare-Medicaid effects on care of mentally ill (CR) 299
population in mental hospitals continues to decline (SR) 672
possible link to X-ray treatment of scalp ringworm (SR) 205
psychiatric disorders rated in general population, New York City (CR) 357
screening of ethnic subgroups in New York City for symptoms associated with psychiatric impairment *495
MENTAL HEALTH
community centers number 376 (SR) 112
epidemiology, survey of teaching programs in schools *1129
mission of the Health Services and Mental Health Administration *95
peer teacher-leader aid in self-help group (CR) 356
reaching for program accountability in community practice *251
relevance of care for the poor, new careers program (CR) 359
MEXICAN-AMERICANS
opiate addiction among *523
MICROSCOPY, ELECTRON
high resolution scanning electron microscope reveals single atoms of thorium and uranium (SR) 680
MIDWIFERY *see* Nursing
MIGRANTS
children, education program includes health services under the Elementary and Secondary Education Act (CR) 325
children, uniform student record transfer system developed by Arkansas State Department of Education (SR) 502
MINING
health and safety; uranium mine as laboratory, Ambrosia Lake, N. Mex. (SR) 522
MISCEGENATION
interracial marriages in Maryland, 1967–68; a statistical report *739
MORTALITY *see* Vital Statistics
MULTIPLE SCLEROSIS
prevalence study, Allegheny County, Pa. (CR) 332
MUMPS
use of live vaccine as anti-epidemic measure, St. Paul Island, Alaska (CR) 311

NARCOTIC ADDICTION *see* Drug Addiction
NATIONAL ACADEMY OF SCIENCES
to create an Institute on Medicine (SR) 858
NEUTRON THERAPY
machine being developed to deliver high-energy neutron beams for treatment of cancer (SR) 932
NEW TOWNS
identification and development of health services in Reston, Va. (CR) 307
NEW ZEALAND
use of school dental nurses (CR) 349
NIGERIA
PHS packaged disaster hospitals sent to (SR) 239
use of PHS packaged disaster hospitals in aftermath of civil war (1969–70) *659
NUCLEAR FACILITIES *see* Radiation
NURSES
as family practitioners, key to medical needs (CR) 302
as pediatric practitioners, action-oriented training program, Massachusetts General Hospital (CR) 304
education does not affect later performance (CR) 303
health appraisals of apparently well persons compared with those of physicians *1042
practical, in the health labor force (SR) 1132
trained as Peace Corps family planning extension workers in India; evaluation of training success *707

NURSES—Continued
value of visits in bringing untreated patients with streptococcal infections and their symptomatic contacts to treatment, Denver Department of Health and Hospitals *113
NURSING
agency administrators play the numbers with "Mr. Digit" to evaluate services (CR) 290
nurse-midwifery service, New York City incentive program (CR) 323
public health, experiences in an urban hospital emergency room (CR) 300
public health, recommendations of Illinois commission (CR) 300
schools, admissions increasing (SR) 534
schools aided by National Institutes of Health special project grants (SR) 779
skills used little in 21 outpatient clinics (CR) 303
NURSING HOMES
administrators, licensing examinations for (SR) 80
care given Medicaid patients to be reviewed (SR) 904
International Union of United Auto Workers; younger age group using benefits (CR) 298
with Medicaid patients, new regulations governing standards (SR) 665
NUTRITION
activities now part of Regional Medical Programs Service (SR) 463
diets of anemic and nonanemic children; survey of cost differences *1087
increased iron levels in U.S. diet recommended (SR) 557
iron deficiency in young women (CR) 334
new foods—delights, doubts, and dangers (CR) 335
pregnant weight watchers risk harm to babies (SR) 964
school feeding prodded by Baltimore task force (CR) 335
survey of changes in food habits during pregnancy *1121

OBESITY
and overweight, incidence among Honolulu policemen and firemen *433
OCCUPATIONAL HEALTH
absenteeism from influenza determined by statewide surveillance system in Pennsylvania, December 1968–January 1969 *603
coal workers' pneumoconiosis in an affluent society *847
effects of aircraft sprayers' exposure to 3 percent DDT aerosol; levels of DDT and DDE in blood and DDA in urine *457
OCCUPATIONAL HEALTH—Continued
hazards, Federal approach (CR) 352
investigation of miners' health and safety in uranium mine, Ambrosia Lake, N. Mex. (SR) 522
mass X-ray program for coal miners (SR) 888
pneumoconiosis, prevalence among Pennsylvania coal miners (CR) 353
plantation workers' coronary risk factors; comparison of data for Japanese and Filipinos, Kauai, Hawaii *975
services for Federal employees *550
toxicity of industrial chemicals; more sophisticated tests sought (CR) 354
upgraded programs for Federal employees (CR) 352

OTITIS MEDIA
among Eskimo children; epidemiologic studies *699

PERSONALITY *see* Individualism
PESTICIDES
contamination of private water supply by organophosphate systemic insecticide Thimet, 1968 *600
PHILIPPINES
human intestinal capillariasis epidemic, northern Luzon (CR) 338
PHYSICIANS
health appraisals of apparently well persons compared with those of nurses *1042
in family practice, 1931–67 *485
views of medical practice in nonmetropolitan communities; professional and social aspects *11
PIGEONS
as indicators of air pollution (SR) 360
PLASMAPHERESIS
safeguards for plasma donors (SR) 1029
PLUMBISM see Poisoning
PNEUMOCONIOSIS
in coal workers in an affluent society *847
prevalence among Pennsylvania coal miners (CR) 353
PODIATRY
screening project for children in District of Columbia *803
POISONING
from the pesticide Thimet in a private well *600
lead, in childhood, diagnosis and treatment (CR) 320
lead, in children, varying psychological sequelae; review of literature *19
lead, prevention, degree of success noted among Baltimore City children (CR) 323
prevention, visual aids (SR) 150
POPULATION *see* Family Planning

PORK
commercial sausage, prevalence of *Trichinella spiralis* larvae, Ames, Iowa, 1953–69 *717
PREVENTIVE MEDICINE *see* Medicine, Preventive

QUARANTINE
processing of equipment being returned from Vietnam for pests of medical and agricultural importance (SR) 68

RABIES
control on Guam *1113
in insectivorous bats in the United States, 1953–65; a review *637
professional board advises on prophylaxis, Iowa (CR) 337
public health significance in Thailand (CR) 339
RADIATION
chromosome aberrations and cancer among A-bomb survivors (CR) 328
mass X-ray program for coal miners (SR) 888
measurement of stray neutron spectra around a tandem Van de Graaff accelerator, Yale University (CR) 316
microwave cooking ovens, preproduction check (SR) 747
microwave cooking ovens, health hazards (SR) 425
national X-ray exposure study, 1970 (SR) 376
possible link of cancer and mental illness with X-ray treatment of scalp ringworm (SR) 205
protection against all but unavoidable or beneficial (CR) 314
Public Health Service role in reactor safety evaluation (CR) 315
registry established to record incidents resulting from exposure to radiation from electronic products (SR) 1018
regulation for X-ray emission levels (SR) 872
results of safety surveys of X-ray facilities within the Federal Health Programs Service (CR) 316
survey of sources in secondary schools (CR) 315
therapy for benign and malignant gynecological disorders, risk of leukemia (CR) 329
RATS
publications for control and prevention programs (SR) 40
RECORDS
medical, changing concept *673
REHABILITATION
up from poverty (SR) 1074
workshops on community health services and health manpower planning for State occupational and physical therapists (SR) 130

RESEARCH
children's perceptions of vulnerability to illness and accidents; an exploratory study *69
on health behavior by scoring socioeconomic status *815
operations, for social design *247
population, elegance versus relevance (CR) 317
Public Health Service Injury Control Research Laboratory; progress report *1109
reaching for program accountability in mental health community practice *251
social, analysis of mobility and change in a longitudinal sample, Alameda County, Calif *49
RESPIRATORY DISEASES
coccidioidomycosis in Los Angeles County *393
new antituberculosis drug, Rifampin, effective against other pulmonary diseases (SR) 690
RICKETS
resistant to vitamin D, effective therapy (SR) 1069
RINGWORM
scalp, X-ray treatment may be linked to cancer and mental illness (SR) 205
RUBELLA
susceptibility survey to evaluate Cendehill vaccine, United States and the Caribbean (CR) 311
vaccine; second company (Philips Roxane Laboratories, Columbus, Ohio) licensed for distribution in December 1969 (SR) 245

SAFETY
seat belt advertising campaign fails, 1968–69 (SR) 655
SALMONELLAE
survival in soft agar *841
SCHOOL HEALTH
see also Screening Programs
absenteeism from influenza determined by statewide surveillance system in Pennsylvania, December 1968–January 1969 *603
central processing dysfunctions in children (SR) 996
childhood characteristics as indicators of adult health status; relationship of school records to selective service classification; New York City study *981
drug addiction, Federal Drug Abuse Program 565
ex-addicts help teachers in drug education program (CR) 326
feeding program prodded by Baltimore task force (CR) 335
reading-spelling patterns clue to dyslexia subtypes (CR) 325
secondary schools surveyed for radiation-emitting sources (CR) 315
sex education needs (CR) 324

SCHOOLS, MEDICAL
suggestions on adding family planning to curriculums in India ---- *889
SCHOOLS OF PUBLIC HEALTH
health administration curriculum revisions, University of North Carolina (CR) ---- 308
new educational facility at Harvard (SR) ---- 39
residency training in public health and in general preventive medicine; a preliminary comparison ---- *933
SCREENING PROGRAMS
coronary heart disease, primary prevention program, Franklin County, Ohio (CR) ---- 330
decline in statewide mobile X-ray programs to detect tuberculosis ---- *901
followup of male and female contacts of gonorrhea patients, Seattle-King County, Wash., 1968–69; comparison of epidemiologic yield ---- *997
for galactosemia in newborns, New York City, 1968–69 ---- *575
for gonorrhea, preliminary report on a mass program, Chicago, 1968–69 ---- *681
for symptoms associated with psychiatric impairment; ethnic subgroups in New York City ---- *495
in mobile clinics, vision of preschool children in Iowa, 1967–68 ---- *41
multiphasic health program, use of computer as a tool (CR) ---- 289
multiphasic, need for sound evaluation (CR) ---- 331
of children's urine for symptoms of kidney disease, Galveston County, Tex. (CR) ---- 326
podiatry, for children in the District of Columbia ---- *803
urinary tests of school children, including consumer motivation and acceptance of service, Galveston County, Tex.; epidemiologic study ---- *828
use of automated multiphasic health testing systems ---- *361
vision testing by parents of 3½-year-old children ---- *426
SELECTIVE SERVICE
acceptance or rejection in relation to childhood characteristics, New York City study ---- *981
SEX EDUCATION
in schools (CR) ---- 324
SMALLPOX
re-evaluation of routine childhood vaccination (CR) ---- 312
vaccine, take rates by double versus single insertions in revaccinees, Georgia State Prison ---- *928
SMOKING
disease, a self-inflicted injury (CR) ---- 332
excess mortality from thromboembolisms in 1966 attributable to users of oral contraceptives and cigarettes ---- *197
SMOKING—Continued
number of ex-smokers increasing (SR) ---- 515
tied to hearing loss in older men (CR) ---- 333
SOCIAL MOBILITY
analysis of mobility and change in a longitudinal sample, Alameda County, Calif ---- *49
SOCIOECONOMIC STATUS
indices for scoring, for research on health behavior ---- *815
SPOROTRICHOSIS
in a nursery barn worker ---- *579
STATISTICS
a procedure for examining time changes in rates of readmission to Public Health Service Hospital, Lexington, Ky., 1935–66 ---- *873
data banks, a statistician's view (CR) ---- 291
data banks, fundamental considerations (CR) ---- 292
use of *Q* value as indicator to aid management in assigning program priorities, Indian Health Service, Tucson, Ariz ---- *725
STREPTOCOCCAL INFECTION
evaluation of motivation of patients in a beta streptococcal control program, Denver Department of Health and Hospitals ---- *113
STROKE
Collaborative Community Stroke Study (CR) ---- 330
contract for care guidelines and criteria between Regional Medical Programs Service and American Neurological Association (SR) ---- 432
SUICIDE
and homicides among American Indians compared with general U.S. population ---- *75
prevention agencies, procedures used in crisis intervention ---- *691
training courses in suicidology at Saint Elizabeth's Hospital, National Institute of Mental Health, HSMHA (SR) ---- 609
SURVEYS
analysis of mobility and change in a longitudinal sample, Alameda County, Calif ---- *49
anticipated health behavior of families eligible for Medicaid coverage, Monroe County, N.Y ---- *1021
attitudes of married college students toward overpopulation and family planning ---- *412
cost differences of the diets of anemic and nonanemic children ---- *1087
fertility, use of Chandrasekar-Deming technique in Liberia; problems with field application ---- *965
for blindness in urban and rural areas of Egypt ---- *587
for radiation-emitting sources in secondary schools (CR) ---- 315
of changes in food habits during pregnancy ---- *1121
of coronary care facilities in 50 Massachusetts hospitals ---- *123

SURVEYS—Continued
of post doctoral education in the United States 206
of teaching programs in schools in the epidemiology of mental health *1129
reliability and validity of answers to repeated questions on physical health, Human Population Laboratory study *1075
screening of ethnic subgroups in New York City for symptoms associated with psychiatric impairment *495
unmet medical needs of children in six Florida counties, 1967 *189

SWEDEN
experiments testing reactions to aircraft and motor traffic noise *1070

SYPHILIS
occurrence of biologic false positive reactions with rapid plasma reagin (circle) card test on leprosy patients *66

THAILAND
public health significance of rabies (CR) 339

TRAINING
clinical instruction in Marine hospitals in the 19th century *471
Federal health agency as preceptor in community medicine *151
for inactive medical technologists, a matching program; observations *666
for pediatric nurse practitioners, Massachusetts General Hospital (CR) 304
for professional and consumer participants in new health partnerships, University of Cincinnati (CR) 306
health aides, by "interaction development" approach *754
health aides, crucial areas and implementation *760
health professionals, PHS grants to 10 colleges and universities for construction of facilities (SR) 731
of school personnel in fundamentals of drug abuse education, Federal Drug Abuse Program 565
programs of National Institute of General Medical Sciences; effects on graduate education in the biomedical sciences (SR) 477
residency training in public health and in general preventive medicine; a preliminary comparison *933
sensitivity training sessions to improve interpersonal relations between staff and consumers, East Harlem District Health Center (CR) 286
team learning in community medicine for medical and paramedical students, University of Kentucky *558

TRAINING COURSES
alcohol and problems of addiction, Brock University, St. Catharines, Ontario Canada 88
care of premature and other high-risk infants, institute at New York Hospital-Cornell Medical Center 624
control of infections in health care facilities, National Communicable Disease Center 466
doctoral program in public health administration, University of Michigan School of Public Health 624
doctoral study in social work and social science, University of Michigan School of Social Work 880
doctorate in medical care organization, University of Michigan 104
electronic product radiation control, University of Florida 89
environmental health fellowships, Consolidated University of North Carolina 89
fellowships in environmental health, Harvard School of Public Health 1086
fellowships in medical care organization, University of Michigan School of Public Health 246
graduate program in air pollution, University of North Carolina School of Public Health 467
graduate program in environmental health engineering, University of Texas at Austin 467
graduate summer session in epidemiology, University of Minnesota 466
hospital and health care administration, University of Minnesota 706
information science, University of Pittsburgh 1041
in suicidology at Saint Elizabeth's Hospital, National Institute of Mental Health, HSMHA (SR) 609
master of public health in health planning and international health problems, University of Michigan School of Public Health 246
master's program in medical care statistics, University of Pittsburgh Graduate School of Public Health 624
master's program in mental health statistics, University of North Carolina 104
medical radiation physics, Harvard School of Public Health 89
methods of epidemiological investigation, University of North Carolina School of Public Health 88
Ph.D. program in urban and regional planning, University of Michigan 466, 1086
program in health planning and international health problems, University of Michigan School of Public Health 880

TRAINING COURSES—Continued
programs for research workers in administration, organization, and delivery of health sciences; application dates 17
residencies in dental public health, National Institute of Dental Research 88
residency training in environmental medicine, University of Michigan School of Public Health 706
residency training in preventive medicine, University of Michigan School of Public Health 706
summer program in human sexuality, Indiana University Institute for Sex Research 467
summer sessions of statistics in the health sciences, National Center for Health Statistics, Public Health Service 246
TRICHINOSIS
prevalence of *Trichinella spiralis* larvae in commercial pork sausage, Ames, Iowa, 1953–69 *717
TUBERCULOSIS
control program; use of inner city health aides in Baltimore *955
detection, decline in statewide mobile X-ray programs *901
new drug, Rifampin, effective against other pulmonary diseases (SR) 690
VACCINATION
smallpox, re-evaluation of routine in childhood (CR) 312
take rates of smallpox vaccine by double versus single insertions in revaccinees, Georgia State Prison *928
VACCINES
Cendehill rubella, evaluation by survey of rubella susceptibility in the United States and the Caribbean (CR) 311
live mumps, use as anti-epidemic measure, St. Paul Island, Alaska (CR) 311
rubella; second company (Philips Roxane Laboratories, Columbus, Ohio) licensed for distribution in December 1969 (SR) 245
VASCULAR DISEASE
excess mortality from thromboembolism in 1966 attributable to users of oral contraceptives and cigarettes, annual risk *197
VENEREAL DISEASE *see* name of disease
VIETNAM
processing of equipment being returned from Vietnam for pests of medical and agricultural importance (SR) 68
VIRUS DISEASES
ECHO 4 and Coxsackie B5 involved in aseptic meningitis epidemic, Baltimore, Md. 1967 *59
micro serologic techniques for diagnosis, National Communicable Disease Center (CR) 350
respiratory, micromethods for sero-epidemiology (CR) 351
VISION
in Egypt, prevalence and causes of blindness in urban and rural areas *587
of preschool children, screening in mobile clinics in Iowa, 1967–68 *41
study of patients with suspected glaucoma; effects of health education methods on appointment breaking *441
testing by parents of 3½-year-old children *426
VITAL STATISTICS
and census tract data used to evaluate family planning *383
associations of cardiovascular mortality with weather in Memphis, Tenn *25
daily deaths in New York City related to rise in sulfur dioxide (CR) 341
driving fatalities of Wisconsin drivers, involvement of alcohol *535
excess mortality in 1966 from thromboembolisms attributable to users of oral contraceptives and cigarettes, annual risk *197
interracial marriages in Maryland, 1967–68 *739
Liberian fertility survey, use of Chandrasekar-Deming technique; problems with field application *965
longevity measures of American Indians *233
mortality rates for rheumatic fever and rheumatic heart disease, Nashville and Davidson County, Tenn., 1940–65 *1091
standardized by five New England States (CR) 291
U.S. birth rate up in 1969 (SR) 787
WASTES, SOLID
automated garbage collection, New York City (SR) 396
clamshell disposal in Delaware Bay (SR) 578
disposal, sources of funds for (CR) 340
management, four PHS grants awarded to solve problems (SR) 464
management, State role (SR) 341
WATER POLLUTION
see also Environmental Health
private well contaminated by organophosphate systemic insecticide Thimet, 1968 *600
University of Michigan's sea grant program (SR) 927
WORLD HEALTH ORGANIZATION
fellowships available to U.S. health workers (SR) 684
X-RAY *see* Radiation
ZOONOSES
epidemiology of beef tapeworm infection in the United States *169
vertebrate ecology in public health *105
